"AGE GRADING RESULTS"

(Age Graded Results)

The purpose of "AGE GRADING RESULTS" is to provide each competitor with a percentage value that will enable them to judge their race performance over any distance from one mile to a Marathon, without bias to age or sex. This is achieved by each competitor's race time being compared with the "WORLD STANDARD TIME" for their age/sex.

FOR EXAMPLE:

A Woman of 53 completes a 10K run in 45:18.

The WORLD STANDARD time for a Woman in the W50 category in a 10K race is 34:24.

If we divide 34:24 by 45:18 and multiply by 100 we get a percentage of 76% as her Age Graded performance (A.G.%) measured against the WORLD STANDARD.

No matter how old you get, your percentage performance will always be judged within the 5 year age group for your sex. As your times get slower with age - so do the WORLD STANDARD times that this report uses to calculate your percentage, giving a true measure of your performance.

ACHIEVEMENT LEVELS

The WORLD PERFORMANCE STANDARDS were compiled by the "World Association of Veteran Athletics" W.A.V.A. Individual performances can be gauged against the following achievement levels:

90% + = World Class

80% + = National Class

70% + = Regional Class

60% + = Local Class

THE CLUB'S FIRST GRAND PRIX 1998

The table on Page 13 shows your points scored in each event which you entered. The cross country events have been separated from the road running events because the age grading will differ quite significantly owing to the nature of these events.

Your average score has been shown for the road running and cross country events to indicate your performance during the season, and to help you gauge which distances are your best.

NOTE

This information has been extracted from the World Veterans Athletic Association's web site.

CANTERBURY 10

25TH JANUARY 1998

RACE RESULTS : ALL COMPETITORS IN FINISH ORDER
