Footnote

2001 has proved to be a very good year for the club. Overall, the club has shown great improvements in performance. We are continuing to show improved positions in county and cross-country leagues. Individuals are shining through.

This success has arisen from the participation of members in various organized events and series of events, such as the Grand Prix. This can be seen because the Grand Prix is attracting more participants. Age grading results are improving in the Grand Prix. Allied with this are improvements in other events.

Long may things continue.
